

Sourabh Soni

Head of Data Science & Analytics | Siemens Energy Data Platform

Applying for: Data Domain Leader — Deliver & Material Supply | Siemens

MBA (IT & Marketing) · B.E. Electronics · IISc AI Cert | Snowflake & DBT certified

Transformed the data platform from a data shelf → an AI & intelligence engine for one of the world's largest gas turbine organisations. Impacting Sales, Marketing, Finance & Engg Domains

8 Yrs Siemens Energy	25 Team Size Led	\$5M Annual Budget	\$200M Contract Value Impact	200+ Turbines 35 Plants
-------------------------	---------------------	-----------------------	---------------------------------	------------------------------

JD FIT — AT A GLANCE

JD REQUIREMENT	MY EXPERIENCE
5+ yrs data mgmt · logistics / supply chain	8 yrs Siemens Energy — 35 plants, 200+ turbines, asset delivery & service ops data 50 + digital apps supported
3+ yrs data team leader	4 yrs leading 25-person team · \$5M annual budget
Data strategy — define & execute	Silos → Data Vault → unified AI platform · \$200M contract win impact by data products Added Data Domains: Sales & Marketing Added AI – MLOps – Governance - GenAI – RAG capabilities
Cloud: AWS · GCP · Azure	AWS Expert · Azure Intermediate · GCP Intermediate
Snowflake · DBT · modern stack	Snowflake · DBT · Collibra · Airflow · Data Vault 2.0
SQL + Python proficiency	SQL & Python— Expert
Agile methodology	SAFe PM certified ·
Stakeholder mgmt · virtual orgs	APAC + Europe + Americas · Thought leadership: industry conference speaker / attendee
Talent acquisition & team building	Built Data Science function from scratch Transformed Data team to a full stack team aligned to Biz
Siemens ecosystem knowledge	8 yrs in Siemens — platform, people & constraints known Knowledge of SDC, Snowflake, DBT, Collibra

SIGNATURE CONTRIBUTIONS

 RAG Chatbot — Cross-Domain AI LangGraph · Multi-Agent · SQL + RAG · LLMOps › LangGraph Flow: query regen → index check → search strategy › Parallel orchestration: RAG Agent · Internal SQL · Cortex SQL · Finchat › Cross-queries across Sales · Marketing · Finance · Engineering › Unified AI insights across org silos — production-grade	 Plant Playbooks — Contract Intelligence Negotiation · Market Analytics · 10-yr Forecast › Standardised analytics: dispatch patterns · competitive dynamics › Reduced contract renegotiation time · improved customer-centricity › Deliverables: market playbooks · plant-specific analytics · risk assessments › POSCO: profit-sharing model enabled via financial simulation
 Customer 360° — Unified Data Platform Sales · Marketing · Finance · Engineering	 ROI & Break-Even Modeling — Pricing Intelligence

› Expanded platform to 4 new domains — internal + external customer view › Federated governance · self-service data products › Enabled: CRM Power Dash · SmartSales 360 (algorithmic cross-sell) › Data Vault 2.0 — eliminated product silos across digital portfolio	CapEx → Profit-Share · Contract Analytics · \$200M Impact › Cost-benefit models across pricing scenarios (CapEx, profit-sharing, hybrid) › Clear ROI & break-even for long-term capital & strategic partnerships › Upsell / cross-sell signals from operational data › Executive decision support for contract negotiations
--	--

KEY WINS

 \$200M contract value — ROI & break-even analytics enabling pricing model decisions	 \$1M+ infra savings — Redshift → Snowflake migration
 50% faster delivery — self-service / citizen data science	 20% fewer data quality incidents — Python pipeline rebuild
 RAG chatbot in production — cross-domain AI (Sales · Finance · Engineering)	 Plant playbooks — reduced contract renegotiation cycle time
 Global Best Project Award 2024 · MVP & Leadership 2023 & 2019	 Data Science function built from scratch — embedded with Sales & Product

TECHNOLOGY STACK

AI / LLM	LangGraph · LangChain · RAG · LLMOps · Vector Stores · Finchat · Cortex SQL
Cloud	AWS (Expert) · Azure (Advanced) · GCP (Intermediate)
Data Warehouse	Snowflake (Expert) · Databricks · AWS Redshift
Languages	Python 12 yrs (Expert) · SQL 16 yrs (Expert) · FastAPI
Pipelines	Airflow · Data Vault 2.0 · DataOps · Python ETL · Pandas
ML & Modelling	Scikit-learn · TensorFlow · Reinforcement Learning · Time-Series · Predictive Analytics
BI / Viz	Tableau (Expert) · Power BI · Plotly · Seaborn
Delivery	SAFe Agile · Scrum · Kanban · OKR-driven · Cross-functional squads

CAREER SNAPSHOT

PERIOD	ROLE	COMPANY
2022 – Present	Head of Data Science & Analytics	Siemens Energy — Digital Products & Services
2020 – 2022	Senior Data Scientist / Data Modeler	Siemens Energy — Energy Market Analytics
2018 – 2020	Product Manager — Digital Data Platform	Siemens Energy — Gas Power Plant Digitalization
2015 – 2018	Lead Data Analyst — Analytics Products	TriZetto (Cognizant) — Healthcare
2014 – 2015	Senior Data Analyst	Optum — Health Insurance Analytics
2010 – 2014	Senior Consultant / Lead Business Analyst	Infosys — Healthcare & Telecom
2009 – 2010	Presales Solutions Consultant	Tata Consultancy Services

Education MBA IT & Marketing — Symbiosis · B.E. Electronics — Jiwaji · AI Certificate — IISc 2023 · SAFe PM — 2022 · Energy Mgmt Professional — Siemens 2024

Awards 🏆 Passion for Energy — Global Best Project 2024 · ⭐ MVP & Leadership Award 2023 & 2019 (Siemens Energy)
